FOREWARD

The Government of Kenya remains steadfast in its commitment to transforming the economy through promotion of products from local industries. As we navigate the complexities of the global trade landscape in 2026, the need to fortify domestic production capacity has never been more urgent. The Preferential Procurement Master Roll No. 1 of 2026 is a cornerstone of this agenda, acting as a tool to trigger increased local content in government consumption thereby catalyzing local manufacturing and creating sustainable employment for the youth.

In line with the 'Buy Kenya, Build Kenya' (BKBK) Strategy and the Bottom-up Economic Transformation Agenda (BETA), this Master Roll lists local produced products with sufficient local production capacity, and communicates to procuring entities not only in Government Ministry's State Departments and Agencies but also lead the way for private sector consumers to give preference to consumption of local goods and services. In this process we will not be merely purchasing goods, but we will be investing also in building Kenyan skills, supporting local Small and Medium Enterprises, and reducing reliance on imports.

As we release this Master Roll, it's hoped that the procurement professionals will not view its implementation as a burden, but as a patriotic duty, economic and social responsibility. Our goal is to see every shilling utilized in public procurement contributes to the growth of a "Made in Kenya" brand that is competitive both regionally within the EAC and AfCFTA, and globally.

Hon. Lee Kinyanjui E.G.H
CABINET SECRETARY
MINISTRY OF INVESTMENTS, TRADE AND INDUSTRY

PREFACE

The **Preferential Procurement Master Roll No. I of 2026** is issued by the Ministry of Investment, Trade and Industry pursuant to the Public Procurement and Asset Disposal Act. This edition builds upon the successes and lessons of previous Master Rolls, featuring a broader range of high-quality Kenyan products.

The 2026 Master Roll has been compiled to cover key sectors including; Pharmaceuticals, Medical & Laboratory Supplies; Veterinary Products; Textiles, Apparel, Leather & Footwear; Timber, Wood & Furniture; Building, Construction, & Mining; Paper, Paper Board & Packaging; Food & Beverages; Metal & Allied; Automotive and Allied industries; Energy, Electrical, & Electronic; Plastic & Rubber and Chemical & Allied.

While the primary purpose of this Master Roll is to guide Ministries, State Departments and Agencies (MDAs), it is designed to also serve as a reference for the private sector. Aligning private procurement with this Master Roll, corporate entities can also contribute to the resilience of national procurement value chains. The State Department for Industry remains committed to providing technical support to meet the highest standards in products quality, as certified by the Kenya Bureau of Standards (KEBS).

STATE DEPARTMENT FOR INDUSTRY

MINISTRY OF INVESTMENTS, TRADE AND INDUSTRY

EXECUTIVE SUMMARY

Development of the Preferential Procurement Master Roll is done in keeping with the requirement of reserving 40% of the annual public procurement budget of MDAs, for procurement of locally produced goods and services. This is in addition to the requirement of creating a database of all locally goods and services. This database has been created with collaboration with the Ministry's State Departments & Agencies (MDAs), especially their regulatory arms and the private sector business associations and it reflects the outputs of the local manufacturing firms.

The Master Roll provides a policy direction from the Cabinet and contains the local products organized into their industrial classifications based on the International Standard Industrial Classification of All Economic Activities (ISIC). The categories therefore compiled include: Medicines; Medical Supplies; Medical Equipment; Medical Laboratory Supplies, Veterinary Products; Metal & Allied; Automotive Accessories; Paper, Paper Board & Packaging; Timber, Wood & Furniture; Building, Mining and Construction; Food & Beverages; Leather & Footwear; Textiles & Apparels; Plastic & Rubber; Chemical & Allied; Energy, Electrical & Electronics and Services. The Preferential Procurement Master Roll No. I of 2026 has 1,287 products and services. Services included are industrial support services that range from Professional & Technical to Financial Services required in supporting manufacturing.

The Preferential Procurement Master Roll No. I of 2026 is not just a list, it is a roadmap for a self-reliant, industrialized Kenya.
